Rates are subject to change at any time without notice. APY = Annual Percentage Yield. The APY assumes dividends remain in the account until maturity; a withdrawal will reduce earnings. Dividends are calculated by the daily balance method which applies a daily periodic rate to the principle balance in the account each day. Dividends will be compounded and credited quarterly for Share/Savings accounts and monthly for Money Market and Certificate accounts. The dividend period begins on the first calendar day of the month and ends on the last calendar day of the month. Fees may reduce earnings. Refer to your Membership Agreement and Disclosures for terms and conditions. Share, Checking and Money Market Accounts: Rates are variable and may change at any time after the account is opened, based on the determination of the Credit Union's Board of Directors. Your savings are federally insured to at least \$250,000 by National Credit Union Administration (NCUA).
